PERMIT NO: **50980**ATTACHMENT 3

The water from PERMIT **50980** is to be intermixed and co-mingled with the duty from a total of fourteen permits for irrigation and domestic use within 689.82 acres of the total 727.5 potential irrigated acres. Within any growing season, 689.82 acres will be irrigated as provided for in the collective terms of all the permits. The intermixing is accomplished through pipelines (4" through 12"), standpipes (for pressure equalization), and a central reservoir (pond).

The 14 total permits combined to accomplish this intermixing are:

Paul C., Richard & Robert C. Lewis	50980
Box 520, Moapa, NV 89025	

The total combined duty allowed with the fourteen permits is 3449.116 AF/yr. Because co-mingling of the duty from all permits will be used to more efficiently irrigate all areas of the farm, and because the fourteen permits are located at ten (10) separate points of diversion, the permittee respectfully requests that the total duty for each point of diversion not be solely restricted to the duty allowed at the point of diversion, but rather that the restriction be limited to 3449.116 AF/yr from all sources. This will allow the permittee more flexibility in his irrigation procedures, will permit more efficient crop irrigation, but will not adversely effect the groundwater source.

(PERMIT TERMS CONTINUED)

The total combined duty of water under Permits 27904 (Certificate 9027), 56477, 56478, 56479, 56480, 56481, 56482, 56483, 56484, 56485, 56486, 56487, 56488, 56489, 56677 and 57584 shall not exceed 2985.0 acre-feet annually and limited to the irrigation of 597.0 acres within the described place of use.
